

# HELPERS AND OTHER SPECIFICS

Transmigration of soul will not be a rebirth or a reincarnation.

The phrases rebirth and reincarnation are denoting a beginning from the womb of a bodily current mom. On the contrary, transmigration of soul isn't so.

Transmigration of soul is denoting the process of taking on the bodily car of one other person who is already present upon the physical world. Transmigration is undergone after an entity crosses previous the stage from the place start from the womb of a physical mom can happen.

But as a result of the macrocosmic laws are equally relevant to each microcosm, so this process of taking over the physical vehicle of one other particular person can only start after an settlement is made with that individual and that too in the delicate or astral worlds.

When a person sleeps, then the astral physique or Sookshma Sharira goes out of the bodily body and it's at the moment when the astral vehicle is roaming freely within those huge macrocosmic fields of past realms that an settlement between the one who to be transmigrated and the donor of the physical car, will get made.

Once the agreement is made, then there also are needed helpers for this job. These helpers can be people who learn about this course of. These knower's might be sages who reside upon that bodily world or in past worlds or they may even be divine beings of beyond realms.

During the strategy of transmigration of soul, the diamond white twine which is emanating out of the highest of head of the physical automobile of the donor and is of a triangular form, is reduce off ... And instantly the cord of the transmigrating one is connected to the identical place. This denotes the completion of process of transmigration. This diamond white cord is also termed as the silver wire within the Biblical lore's and this has additionally been termed as Brahma Naadi within the a lot earlier Yoga Tantra's.

Relying on the evolutionary standing of the one who's getting into into the method of transmigration, are the helpers who get chosen for this assisting during the process of transmigration of soul. Increased is the evolutionary standing of the one who's getting transmigrated, increased would even be the evolutionary standings of the helpers who help in that strategy of transmigration.

Basis above, if the one who's transmigrating is already that person who has gone past the beyond and is simply returning back as a macrocosmic instrument or as an instrument of Maker's Makings and that too for doing sure particular jobs which are both dictated by macrocosmic deities or by macrocosmic divinities or by time and its eternal cycles i.e. during change of a human of divine age cycle, then such transmigrations can only be

assisted by a Non Human Man (i.e. Amanav Purusha) and by one or more of the macrocosmic deities of those a lot beyond or subtle methods.

And since transmigration of soul is the method of taking over a physical automobile which is already current in the physical world, so this course of was also called as Parkaya Pravesh in the Vedic and Yogic Sanskrit lore's. Biblical lore have termed this strategy of transmigration as that of a Virgin Delivery.

And there also are these circumstances where the one who was to transmigrate to a decrease world is already resting in an impressionless state of his personal consciousness i.e. Samskara Rahit Awastha of Chitta, which as such denotes a condition of existence which is past the purviews of the Maker's Makings, so for such a one to transmigrate to a decrease world, another appropriately evolved aspirant is implanted into that world i.e. that appropriately advanced soul is made to take delivery in that world, in order to prepare the bodily automobile for the later transmigrating one. But there are lots of varieties of transmigrations, so our mentioned one shouldn't be the only type of transmigration. [Transmigration of soul](#)

As it's inside any earthly settlement, so is it throughout the subtle agreement of transmigration of soul. Thus when the agreement is made between the transmigrating one and the one who is the donor of the physical car, then the donor can ask for anything from the transmigrating one because from the macrocosmic perspective, donating of 1's personal physical automobile is naught but a supreme sacrifice.

And after this agreement is made after which transmigration undergone already, then the one who transmigrated additionally must comply to all that was agreed for throughout the technique of transmigration.

Basis above, the donor may even switch all his good and bad deeds that he had ever performed throughout any previous stage of his evolutionary existence, however inside the purviews of the ideas, course of and legal guidelines of the Maker's Makings. This was my case this time round as the donor transferred all his Karmas to me.

And if that transmigrating one who adopts these Karmas of the donor, is already beyond Karmas and Karma Phala (i.e. cause and results or deeds and fruits respectively) then since as per the "precept of everlasting evolution" there cannot be any regression from an already attained evolutionary standing, all those Karmas which have been taken over, would additionally should be nullified and their impressions unseeded from throughout the consciousness orb or Chitta of the transmigrating one. Until that is accomplished, that transmigrating one can not even begin doing that for which she or he had transmigrated. This strategy of unseeding the impressions that were taken over from the donor may even take up to 28 years, as was my case this time around.

And even when above is a matter of fact, but after unseeding of all adopted impressions, one last and final impression i.e. Antim Samskara, always remains as a result of this final and ultimate impression can not ever be destroyed or unseeded by any transmigrated

entity. The final and remaining impression can only be unseeded by the original holder of it i.e. the donor of the bodily automobile.

Thus as far as the transmigrated one is anxious, after unseeding of all impressions other than the last and remaining impression is done, then this last impression or Antim Samskara, additionally get evicted out from the top of the head of the physical automobile of that transmigrated one and then this impression finally will get transferred to the original donor of the physical car. So regardless of which of the subtler realms that donor may be residing at the moment, when the last impression get evicted out of the highest of head of the transmigrated one, then it could attain that donor and that donor would also must undertake it.

And it will definitely is this impression which ensures that the donor would return back in future, but just for one final and closing time so as to unseed the final impression and thus “Be Liberated”.

I wrote “Be liberated” and not “Get Liberated” as a result of getting is via the trail of deeds and quite the opposite, “being” is the pure path which rests beyond deeds. That pure path is within everybody and it may be known through the inward path or path of self realization.

So foundation above, throughout those distant occasions, that little little one whose body was taken over this time around and who had asked for taking on all his previous deeds and fruits, would positively be returning again to physical realms in order to stroll these paths which unseed his final impression and thus would he also “Be Liberated”.

Transmigration can be reflected in the astrological delivery charts, but to know this side the astrologer would need to carry the timeless lineage of Vedanga and Jyotish in addition to being blessed with a divine eye to see it after studying about it within the beginning charts of the donor.
